APPLICATION FOR PATENT TERM ADJUSTMENT UNDER 37 C.F.R. 1.705

Mail Stop ISSUE FEE  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

This Application for Patent Term Adjustment is being submitted in accordance with 35 U.S.C. §154(b)(3) and 37 C.F.R. §1.705.

The Applicants request a review of the patent term as set forth on the above-identified patent issued on November 8, 2005. This Application is being submitted within two months of the issuance of the patent based on the Patent term adjustment specified in the Issued Patent.

Statement of Facts

The Notice of Allowance for the above-identified patent was mailed on March 23, 2005. The accompanying "Determination of Patent Term Adjustment under 35 U.S.C. 154(b)" provides that the adjustment to date is "547" days.

The patent issued on November 8, 2005, and the "Determination of Patent Term Adjustment under 35 U.S.C. 154(b)" that accompanied the issue notification provided for a Patent Term adjustment of 347 days.

Applicants submit that the correct patent term adjustment is 423 days. Specifically, under 37 C.F.R. §1.702(a), the U.S. Patent and Trademark Office failed to take certain actions within specified time frames. Further, the amount of time that the term was reduced based on delays by the Applicants were incorrectly calculated by the Patent Office.

The relevant dates as specified in §§1.703(a) through (e) and §§1.704(a) through (e) for which an adjustment is sought and the adjustment as specified in §1.703(f) to which the patent is entitled is set forth in the following table:

		563	140	423 Days Total

The above-identified patent application is not subject to a terminal disclaimer.

As indicated above, Applicants submit that the total PTO delays were 563 days. Further, the total applicant delays under 37 CFR 1.704 were 140 days resulting in a total of 423 days of PTA.

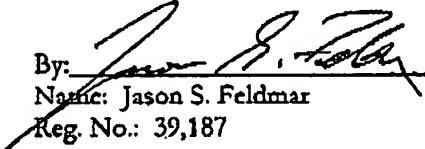

The Patent Term adjustment history provides for a 70 day delay of applicant for "Workflow-Drawings Finished", 69 days for "Miscellaneous Incoming Letter" dated 09-01-2005, and 77 days for the "Amendment After Notice of Allowance (Rule 312)" dated 04-07-2005. Applicants note that these applicant delays are incorrect as noted above. In this regard, the workflow drawings finished of 70 days applicant delay is not based on any PTA adjustment rules. In this regard, drawings were not submitted and the issue fee was timely paid on June 23, 2005.

This Application is being submitted by facsimile, and thus Applicants request that the required Application fee of \$200 under 37 CFR 1.18(e) be charged to the Deposit Account No. 50-0494. Any other fees should be charged to Deposit Account No. 50-0494 as well.

Respectfully submitted,
